

Trash Alternatives

Contributed by Joan Snider

With the formation of the Fannin County BEES Task Force, there are some new alternatives for trash disposal in the county. On a limited basis, Precinct 3 and 4 Barns are accepting metal and plastic and plastic bale wrapper and old household appliances. Please call the barns to make sure what you have is acceptable, check into the office when you arrive and never leave anything outside the gates. The County Commissioner for Precinct 3 is Dwayne Strickland 903 587 3455 and Precinct 4 is Pat Hilliard 903 583 2039.

Hazardous Household waste Disposal will be available to Fannin County Residents in Sherman, tentatively May 5th and there will be a countywide cleanup on April 14th as part of KEEP TEXAS CLEAN.
